

Ammo Availability and Pricing

For non-ammo pricing click on the SERVICES tab

We no longer can guarantee that shooters will be able to buy ammunition for their shoot at the Heber Valley Gun Club. We highly encourage shooters to bring ammunition to the club.

Our supply chain, despite our best efforts, is just not reliable at the moment. When we can get 12 and 20 gauge shells then they will be for sale with the following conditions:

- Any shells that you buy must be shot on the day of purchase on one of our shooting ranges
- Prices of our supply varies wildly so we can't advertise ammo prices. Just ask.
- Depending on our stock, we may have to limit per person purchases.
